

Fabco Plastics carries the Largest Inventory of Industrial Plastic Sheets, Rods and Shapes in Canada. Fabco's cross nation warehouse locations can provide product availability and technical assistance for all your needs. Call us or view our product selections on line. We carry PVC and CPVC , PVDF and Polypropylene materials for manufacturing components used in high corrosion applications – Polyethylene for rugged wear resistant applications in Marine, Forestry and Food - Copolymers for Medical and Orthotics - Polycarbonates and Acrylics for Commercial and Glazing.

PVC sheet has excellent corrosion resistance and weather resistance. The working temp is 33°F - 160°F. and the forming temperatures of 245°F. PVC is the most widely used member of the vinyl family and it is excellent when used for corrosion-resistant tanks, ducts, fume hoods and pipe. PVC is ideal for self-supporting tanks, fabricated parts, tank linings and spacers. PVC is not UV stabilized and has a tolerance of +/- 10%.
