

Pumps and Filtration

Fabco Plastics Carries the widest range of Pumps and Filters in Canada, We supply Magnetic Drive Centrifugal, Vertical Centrifugal, Air Operated Double Diaphragm [AODD], Peristaltic & Diaphragm style Metering Pumps.

Our Filters, Basket and Y-Strainers are designed to protect pumps, pipeline systems and components from debris while allowing process media to flow freely. Available in both Simplex and Duplex configurations, our Filters and Strainers can be ordered in PVC, CPVC, GFPP, and clear EASTAR Materials. Baskets and Screens are available in thermoplastics as well as optional 316 SS with a variety of perforations and mesh sizes.

Fabco Plastics carries Canada's widest range of Pumps, Filters and Strainers used in Corrosive and High purity applications for industry.
