

Insulated PVC Pipe

+GF+ Urecon/Fabco Pre-Insulated Plastic Pipe

From the Arctic Circle to Antarctica, Urecon is the name synonymous with superior quality and guaranteed void free pre-insulated piping systems. Our systems are manufactured to meet the most rigid quality standards required for projects exposed to the extreme climates of the far north. These identical stringent standards are applied to the piping systems produced for the more benign latitudes of the Caribbean and those in between; thus insuring a level of quality unsurpassed in the industry.

Products and Services:

- System design assistance
- Urecon's U.I.P.® insulation systems to 149 °C (300 F)
- Wide range of outer jackets, including counter wound polyethylene, extruded PE casing, Spiwrap spiral wound galvanized steel or aluminum, extruded white PVC casing, FRP casing and banded aluminum, galvanized or stainless steel
- Custom specialty jackets available
- Insulation kits custom made to suit all fittings for each of our systems
- Heat Tracing Systems, including Urecon's constant watt Thermocable, Series cable, Self-regulating cable, Mineral insulated cable, Electronic and mechanical thermostats
- High temperature composite insulation systems
- Portable foam kits
- Mec-Seal and Slipjoint specialty insulation joint kits
- EN253 District heating systems from Logstor
- Flexible systems from Logstor, PEX-Flex, Cu-Flex and Steel-Flex

Applications:

- Municipal freeze protection including Water and sewer mains, Service connections and Bridge crossings
- District heating and cooling
- Steam and condensate return
- Outdoor wood furnace and solar hydronic heating
- Mine intake, tailings and reclaim
- Snow melt systems
- Cryogenic systems
- Chemical feed and temperature maintenance
- Industrial process
